*) The wild wood types are only available for fronts.

Colour patterns

Wood is one of the most noble, beautiful and versatile natural products we have. Every piece of wood is unique. Differences in colour are a result of the wood's structure and place of origin. Similarly, the age of the piece of furniture will determine its colour, as natural factors in your home's environment (e.g. sunlight) can change the surface colour. When your order specifies a particular colour, we do our best to match it. But minor variation in wood, leather and glass is inevitable. An exact colour match will never be possible.

leather colours

Only for the s1 chair and loft cushion

Yarn colour: corresponds to the shade of the darker leather in the case of two-tone leather and to the colour of the respective leather or fabric in the case of two-tone fabric or in a leather/fabric combination.
