

NOBILE SWING

Model No. 2071

DESIGN GINO CAROLLO

We like to introduce a new member of the Nobile family: The cantilever chair. The extraordinary sitting comfort is possible due to the high quality seat belting and the backrest with the soft upholstery. This chair from glove-soft leather is suitable for living as well as for object areas. The elliptic tube is mitre jointed and gives the chair its striking contour. Nobile is available with or without armrests. As cover materials we offer two high quality leather collections with 77 color shades. The frame is available in polished chrome, matt chrome colored, dark bronze or black laminated.
