Type: Suspension
Lamps: E08110 1 LED 5W (3000°K)
Product use: Indoor
Materials: Aluminium extrusion body
Colors: White, black, polished

Description: Aluminium suspension fixture for spot lighting with halogen or LED light sources. Only 0.98" in diameter. An elementary adjustment system on the wire nsures that the product is perpendicular, regardless of the asymmetry of the lamp body. Many possible installations, either track or ceiling, in single or multiple configurations thanks to the special attachment systems.
